# STATUTORY INSTRUMENTS

1996 No. 29.

## The Tobacco (Control and Marketing) Regulations, 1996.

*(Under section 16 of the Tobacco (Control and Marketing ) Act, 1966).*

IN EXERCISE of the powers conferred on the Minister by section 16 of the Tobacco (Control and Marketing) Act, 1966, these Regulations are made this 15th of April, 1996.

Act No. 29  
of 1996.

1. These Regulations may be cited as the Tobacco (Control and Marketing) Regulations, 1996.

Citation.

2. In these Regulations, unless the context otherwise requires—

Inter-  
pretation.

“buyer” has the meaning assigned to it under the Act;

“Commissioner” means the Commissioner for Marketing;

“crop” means tobacco which is grown by a grower using his own funds or by the grower using funds of a sponsor after entering into a sponsorship agreement with a sponsor;

“grower” has the meaning assigned to it under the Act;

“Inspecting Officer” means an officer appointed by the Minister under Section 10 of the Act;

“Minister” has the meaning assigned to it by the Act;

“sponsorship agreement” means a written agreement entered into between a sponsor and a grower whereby the sponsor undertakes to finance the growing of tobacco by the grower.

Registers.

3. The Commissioner shall keep and maintain registers in respect of the following persons, that is to say,

- (a) any person who is engaged in sponsoring growers in the growing of tobacco;
- (b) tobacco buyers;
- (c) tobacco processors; and
- (d) tobacco exporters.

Requirements for registration for a certificate of Internal marketing of tobacco.

4. (1) No person shall carry out any activity specified in sub-regulation (2) of this regulation without a valid registration certificate, issued by the Commissioner in respect of that activity.

- (2) The activities referred to in sub-regulation (1) are—
- (a) buying of tobacco;
  - (b) processing of tobacco;
  - (c) operating a factory in which any type of tobacco is processed or is intended to be processed;
  - (d) controlling a store used or intended to be used for the storage of tobacco; and
  - (e) sponsoring of the growing of tobacco.

Application for registration certificate.

5. (1) A person who wishes to carry out any of the activity specified in sub-regulation (2) of regulation 4 may apply for the relevant registration certificate.

(2) An application for a registration certificate referred to in sub-regulation (1) of this regulation shall be in the form set out in the Fourth Schedule to these Regulations and shall be accompanied by a fee determined by the Minister.

Grant of registration certificate.

6. (1) Where the Commissioner is satisfied that the applicant for a certificate of registration referred to in regulation 5 (1) has satisfied the requirement necessary for the grant of the registration certificate he may, upon payment of the prescribed fee, grant to the applicant the relevant registration certificate.

(2) The Commissioner may refuse to issue a certificate of registration if—

- (a) the applicant fails to show evidence of availability of capacity to store or process tobacco in an acceptable manner;
- (b) the applicant fails to execute a performance bond determined by the Minister;
- (c) if the applicant has been convicted of an offence involving dishonesty or fraud or any offence under these regulations; or
- (d) if the applicant fails to pay the prescribed fee.

(3) Where the Commissioner refuses to grant a registration certificate to the applicant he shall, in writing, notify the applicant.

(4) The registration certificates referred to under these regulations shall be in the forms set out in the fifth, sixth, seventh and eighth schedules respectively.

7. (1) Any registration certificate issued under these regulations may be cancelled at any time if the holder of the registration certificate—

Cancellation  
of  
registration  
certificate.

- (a) is convicted of an offence involving dishonesty, or fraud, or any offence under these regulations;
- (b) in case of a registered cooperative society is convicted of an offence under the Cooperative Statute, 1991.

Statute  
No..... of  
1991.

(2) A registration certificate shall not be cancelled unless the Commissioner notifies, in writing, the holder of the registration certificate of his intention to discontinue that person's operations in respect of which he was issued the registration certificate.

(3) Where a registration certificate is cancelled the holder of that registration certificate shall surrender the registration certificate to the Commissioner.

Sponsors.

8. (1) A sponsor may enter into a sponsorship agreement with a grower, cooperative society, association or any other recognized group.

(2) A sponsor shall, before entering into any sponsorship agreement with a grower, ensure that the proposed grower has no outstanding debts secured under a different sponsorship agreement in respect of a crop that is grown or is to be grown.

(3) A sponsor shall maintain records of all the growers with whom he has subsisting sponsorship agreements.

(4) The records referred to in sub-regulation (2) of this regulation shall include—

- (a) names of the growers, societies or other groups;
- (b) copies of identification cards of each grower; and
- (c) such other information as the Minister may determine.

(5) The sponsor shall make available all the information he is required to maintain under sub-regulation (3) of this regulation to the Minister every season.

Control of  
internal  
purchasing  
of tobacco.

9. No person shall purchase any crop from a grower with whom he has no subsisting sponsorship agreement, save from a grower who used his own funds to grow the crop.

Restriction  
on  
purchasing  
of tobacco,  
*etc.*

10. (1) No person shall purchase any crop from a grower with whom he has no subsisting sponsorship agreement, save from a grower who used his own finances to grow the crop.

(2) No person shall transport any crop—

- (a) which is not grown under his sponsorship; or

(b) which is not of his employer.

(3) Where a person is found in possession of a crop purchased contrary to the provisions of sub-regulation (1) of this regulation, that person shall surrender the crop for delivery to the lawful sponsor.

(4) A sponsor's identification mark on the bale containing the tobacco shall be *prima facie* evidence of sponsor's interest in that tobacco.

(5) A person who contravenes any provisions of sub-regulations (1), (2) or (3) of this regulation commits an offence and is, on conviction, liable to the penalty spelt out in the Act.

11. (1) A sponsor shall—

Obligations  
of sponsors.

(a) supply to the grower, cooperative societies, association and other groups adequate quantities of good quality seeds;

(b) provide for purchase by the grower minimum level of inputs and chemicals as specified in part one of the Second Schedule to these regulations.

(2) A sponsor shall not provide a grower with any of the prohibited chemicals specified in Part Two of the Second Schedule to these regulations.

12. (1) A sponsor shall promptly pay the grower for the tobacco purchased from him, which payment shall be in accordance with the terms of sponsorship agreement and the grade specifications specified in the Third Schedule to these regulations.

Mode of  
payment of  
growers.

(2) Where a sponsor defaults in payments as provided under sub-regulation (1) of this regulation, he shall pay an interest on the purchase price in respect of the period of payment, which interest rate shall be calculated at a rate equivalent to the Bank of Uganda, minimum commercial lending rate.

(3) The interest payable under sub-regulation (2) of this regulation shall be calculated on daily balances compounded monthly with an additional margin of two percent.

Establishment of flue wood tree nurseries.

13. (1) A sponsor shall assist the grower to establish flue wood tree nurseries that may yield to the growers for transplanting in each year a minimum of,

(a) five hundred tree seedlings per hectare or part thereof of tobacco grown by a farmer growing flue-cured tobacco;

(b) one hundred tree seedlings per hectare or part thereof for tobacco grown by a farmer growing fire-cured tobacco;

(c) one hundred tree seedlings per hectare or part thereof of tobacco grown by a farmer growing air-cured (burley) tobacco.

(2) A sponsor shall ensure that the following minimum number of trees are planted and maintained in each year by the growers.

(a) five hundred tree seedlings per hectare or part thereof of tobacco grown by a grower growing flue-cured tobacco;

(b) one hundred tree seedlings per hectare or part thereof of tobacco grown by a grower growing air-cured (burley) tobacco;

(c) one hundred tree seedlings per hectare or part thereof of tobacco grown by a grower growing ~~flue~~-cured tobacco.

Restrictions on setting of tobacco, etc.

14. (1) No grower shall enter into a sponsorship agreement with more than one sponsor in respect of the same crop grown in the same growing period in the same area.

(2) No grower shall sell any crop grown by him under a sponsorship agreement to any person other than his sponsor.

(3) No grower shall sell to his sponsor tobacco at a price and buying points different from those specified in the sponsorship agreement.

15. (1) A grower shall, in the course of growing tobacco, use the minimum quantities specified in Part One of the Second Schedule to these regulations.

Prohibited  
chemicals.

(2) No grower shall use, in the course of growing tobacco, any of the prohibited chemicals specified in Part Two of the Second Schedule to these Regulations.

16. (1) A grower shall,

Obligations  
of a grower.

(a) ensure that he has a curing barn or the use of one in his growing area and storage space sufficient for the storage of tobacco grown by him;

(b) ensure that no tobacco with foreign matter is offered for sale;

(c) present his tobacco for sale after it is graded in accordance with the gazetted specifications specified in the sponsorship agreement;

(d) ensure that there is no mixing of tobacco offered by him for sale; and

(e) deliver his tobacco for sale in such manner as may be specified in the sponsorship agreement.

(2) A grower shall ensure that all tobacco stalks and residue are uprooted from the field and burnt before such date as is specified in the First Schedule to these regulations.

17. No person shall export any unprocessed or undried tobacco without the consent, in writing, of the Minister.

Export of  
tobacco.

18. (1) An Inspecting Officer may enter upon any land or in any building or vehicle where tobacco is grown, purchased, stored or transported for the purpose of ascertaining that the provisions of these regulations and the sponsorship agreement are complied with.

Search of  
vehicles.

(2) Any person who obstructs or refuses entry to a person authorized under sub-regulation (1) from carrying out the required inspection, or fails, neglects, or refuses to produce records required by these regulations to be maintained, commits an offence, and is, on conviction, liable to the penalty spelt out in the Act.

Search of  
Vehicles.

19. An Inspecting Officer may,

(a) stop and search any vehicle which he has reason to believe is being or has been used for conveying any tobacco in respect of which an offence is being or has been committed;

(b) detain and deliver such vehicle with its contents to the nearest Police station;

(c) cause the relevant authority in the area to seize and remove, upon the issue of a receipt signed by him, any tobacco from any land, building, or vehicle where he has reason to believe that an offence is being or has been committed.

Confiscated  
tobacco to  
be returned  
to lawful  
owner.

20. Where an offence under these Regulations or Act is found to have been committed, and without prejudice to the discretionary powers of a court, where the tobacco in respect of which the offence is committed does not belong to the offender, and where the lawful owner can be identified, the tobacco shall forthwith be delivered to such owner.

Revocation.  
S.I. No. 184  
of 1970.

21. The Tobacco (Prescription of Grades) Regulations, 1970, are hereby revoked.

---

## SCHEDULES.

FIRST SCHEDULE  
GROWING SEASON.

1. Northern Areas

- (a) Sowing of seed bed not before 1st January.
- (b) Removal of all tobacco leaves and destruction of tobacco stalks in the field by latest date 30th September.

2. Southern Areas

- (a) Sowing of seed bed not before 1st July.
- (b) Removal of all tobacco leaves and destruction of tobacco stalks in the field by latest date 30th March.

SECOND SCHEDULE

PART ONE

Minimum availability level of inputs of Part One, U.S.D.A. Approved Chemicals.

(U.S.D.A. = United States Department of Agriculture).

Minimum level Inputs and U.S.D.A. Approved Chemicals:

(Note all quantities refer to one hectare of tobacco).

(i) Tobacco seed bed inputs:-

Soil fumigant	—	Sufficient
Fungicide	—	Sufficient
Insecticide	—	Sufficient
Fertilizers	—	Sufficient

(ii) Field Inputs (Per hectare Minimum of N.P.K.)

Flue cured	Fire cured	Burley (Air cured)
Base fertilizer		
N 30 kg.	12 kg.	6 Kg.
P 72 kg.	36 kg.	18 kg.
K 80 kg.	48 kg.	24 kg.

SECOND SCHEDULE—*continued.*

Top dressing

N26 kg.            26 kg.            52 kg.

(iii) Chemicals:

Insecticides

Fungicide—when necessary

(iv) Material supplies:

Flue pipes—One full set per flue cured barn.

One hand sprayer per grower.

One barn thermometer per flue cured barn. (Except Burley farmers).

Twine (natural fibres only).

Chicken wire (1 per flue cured barn).

PART TWO

Prohibited chemicals for Tobacco

1. Aldrin
2. Dieldrin
3. Campheclor (Toxaphene).
4. Chlordane (Octachlor).
5. 2, 4-D
6. DBCP (Dibromochloropropane).
7. DDT + TDE (DDD) + DDE.
8. Dicamba.
9. Endrin.
10. Ethylene dibromide.
11. Formothion (Anthio).
12. Heptachlor (Drinox) +.
13. Heptachlor epoxide.
14. Hexacholrobenzene.
15. Metozychlor (Marlate).
16. 2, 4, 5—T.
17. 5 Cypermethrin (Cumbush, Repcord).
18. + Permethrin (Ambush, Pamce, Picket).

### THIRD SCHEDULE

#### GRADE SPECIFICATIONS

##### GRADE SPECIFICATION FOR BURLEY TOBACCO 1995

- X1B Top quality primings and lugs, thin to slightly bodied and carrying frog eye spot. Must be of a true buff to light tan colour and fluffy with elasticity (stretch) and generally sound. No green, pale ("E" type) yellow, pink or red leaves will be tolerated in this grade. Can have 5% damage tolerated; but no stain or blemishes. The minimum length should be 50 cms.
- X2B Thin to slightly bodied primings and lugs with a true buff to light tan colour and preferably carrying frog eye spot. Can have up to 10% damage only, with the characteristic fluffy and stretch; but no stain or blemish. No green, pale ("E" type) yellow, pink or red leaf will be tolerated in this grade. Minimum length should be 40 cms.
- X3B Primings and lugs thin to light bodied carrying a reasonable percentage of damage (15% maximum). Buff to light tan in colour but pale ("E" type) yellow and running green will be accepted. Can carry a high percentage of frog eye spot. No pink, red, stained or blemished tobacco will be accepted in this grade. Minimum length will be 30 cms.
- X4B Primings and lugs of a lower quality, buff to light tan in colour, but can also have yellow "K" and running "V". Can be of any length but not less than 30 cms with damage tolerance of up to 25% only. No mouldy, black, dead green or funky tobacco will be accepted in this grade.
- C1B Top quality cutter of light tan in colour with thin to medium body. Can have some frog eye spot with a good stretch and generally sound. No yellow "K" greenish "V", pink or red leaves will be accepted in this grade. Minimum length will be 50 cms. Can have 5% damage tolerated but no stain or blemish.
- C2B Thin to slightly bodied cutter of light tan colour and can be carrying some frog eye spots. Can carry a reasonable damage; up to 10% only; but stretchy and sound without, stain or blemish. No yellow "K" greenish "V", pink or red leaves will be accepted in this grade. Minimum length will be 40 cms.

THIRD SCHEDULE—*continued.*

- C3B Cutters of light tan colour, thin to slightly bodied, carrying a reasonable percentage; 15% maximum damage. Can have some running green and pale yellow "E" type tobacco, but no pink or red leaves will be accepted in this grade. No stained or blemished tobacco is accepted in this grade. Minimum length is 30 cms.
- C4B Cutter of lower quality; light tan colour, but can have running green "V" or pale yellow "E" type. Can have damage tolerance up to 25% only; of any length but not less than 30 cms.
- B1B Mid stalk leaf of tan to light tan colour, medium to fleshy body; with elasticity. No green, yellow, pink or red leaves are accepted in this grade. Damage tolerance is only up to 5% or spot. Medium length to be 50 cms.
- B2B Mid stalk leaf of tan to light colour, can have up to 10% damage tolerance or spot medium to fleshy bodied, with elasticity. No green "V", yellow "K" pink or red leaves will be accepted. Minimum length is 40 cms.
- B3B Midstalk leaf light tan colour medium to fleshy bodied with up to 15% damage tolerable. Running green "V" or pale ("E" type) yellow may be accepted in this grade; but no pink or red leaves are accepted. Also no stained blemished or mouldy tobacco is accepted in this grade. Minimum length is 30 cms.
- B4B Midstalk leaf tan to light tan on colour with reasonable damage (25% maximum). Can also have a small percentage of stain and blemish tolerated. Also greenish "V" and pale ("E" type) yellow mouldy and funky tobacco may be accepted in this grade. May be of any length but not less than 30 cms.
- R1B Top quality sound upper stalk leaf tan to dark tan in colour, fleshy to heavy bodied with oil and elasticity. Can have up to 5% damage tolerated. No dark sweated, yellow, green or blemished styles will be accepted. Minimum length 40 cms.
- R2B Good upper stalk leaf tan to dark tan, heavy bodied but can have up to 10% damage tolerated. No dark sweated, blemished, green, yellow or mouldy will be accepted in this grade. Minimum length is at least 35 cms.

THIRD SCHEDULE—*continued.*

- R3B Heavy bodied, fair quality upper stalk leaf, tan to dark tan in colour. Can have up to 15% damage tolerated. Running green "V" and pale yellow ("E" type) may be accepted in this grade but no pink or red leaves are acceptable. No blemished, mouldy or funky tobacco will be accepted.
- R4B Heavy bodied upper stalk leaf, tan to dark tan in colour carrying a reasonable percentage of damage (25% maximum), stained or blemished tobacco to a reasonable degree is accepted in this grade. Also pale yellow ("E" type) and greenish "V" style may be tolerated. No pink or red leaves will be accepted in this grade. Can be of any length but not less than 30 cms.

The following tobacco will be rejected:-

1. Tobacco mixed or nesting in a bale.
2. Tobacco hands not properly tied either too small or too large.
3. Hot, funky or mouldy tobacco.
4. Dead leaves or scrap tobacco under  $\frac{1}{4}$ " in size.
5. Tobacco with excessive sand, mud or soil.
6. A moisture content greater than 18% or less than 14%.

GRADE SPECIFICATIONS

UGANDA DARK FIRE CURED GRADE DESCRIPTION

- (i) Top quality, fully sound leaf, heavy bodied well smoked, mahogany in colour, gummy, oily elastic. Injury and damage tolerance less than 5%. Length over 21".
- (ii) Above standard quality, sound leaf, heavy bodied, well smoked mahogany in colour, gummy, oily and elastic. Injury and damage tolerance less than 10%. Leaf length 19"-21".
- (iii) Above standard quality, sound leaf, heavy bodied, well smoked, mahogany in colour, gummy, oily and elastic. Injury and damage tolerance less than 10%. Length between 16"-19".

THIRD SCHEDULE—*continued.*

- (iv) Standard quality leaf, medium to heavy bodied, well smoked, mahogany in colour, reasonable amount of gum and elasticity. Very slightly torn leaf. Injury and damage tolerance less than 20%. Length over 19".
- (v) Below standard quality leaf, medium to heavy bodied, fairly well fired, gummy with little oil, fairly elastic with some lamina variegations. Injury and damage tolerance below 30%. Length below 19".
- (vi) Sub-standard quality leaf, thin, medium, heavy bodied leaf, tolerated in this grade. Poorly smoked with pronounced running green. Injury and damage tolerance not exceeding 40%. Leaf can be any length.

LG Standard quality leaf, medium to heavy bodied, well-smoked, gummy, oily, elastic with faint running green. Injury and damage tolerance 10%. Length 19".

LSC Standard quality leaf, medium to heavy bodied. Under fired leaf, reasonable amount of oil, gum and elasticity. Injury and damage tolerance 10%. Length over 19".

SSC Standard quality leaf, medium to heavy bodied. Under fired leaf, reasonable amount of oil, gum and elastic. Injury and damage tolerance 10%. Length below 19".

SG Standard quality leaf heavy bodied, well smoked gummy, oily elastic with faint running green.

NB: The following tobacco will be rejected:

1. Tobacco mixed or nesting in a bundle.
2. Tobacco hands not property tied either too small or too large.
3. Hot, funky or mouldy tobacco in a bale.
4. Dead leaves or scrap tobacco under 1/4 in size.
5. Tobacco with excessive sand on leaves.
6. Heavy crude green leaves.
7. Any bundle less than 5kgs.
8. A moisture content greater than 18% or less than 14%.

THIRD SCHEDULE—*continued.*

GRADE SPECIFICATIONS

FLUE CURED SPECIFICATIONS

TOP FINE AND HIGH QUALITY LEMON TO LIGHT ORANGE

TL12 Leaf of fine and high quality in lemon to light orange in colour. Mature leaf with spot, open grained, fairly soft to slightly rough, fairly oily, medium body.

TOP GOOD QUALITY LEMON TO LIGHT ORANGE

TL3 Leaf and cutters of good quality in lemon colour. Immature leaf, oily elastic, clear faced no spot or injury, medium body. Slight blemish not exceeding 10% of the total leaf surface.

CLEAR FACED FAIR QUALITY LEMON/ORANGE

TSK Leaf and tips of fair to low quality in lemon to light orange in colour. Heavy body, normal to narrow width, slightly sponged and scorched with some run back.

TOP FINE AND HIGH QUALITY ORANGE

TO12 Leaf of fine and high quality in orange to dark orange in colour. Ripe leaf with spot, open grained, fairly soft to slightly rough, fairly oily, medium body.

TOP GOOD QUALITY DARK ORANGE/MAHOGANY

TO3 Leaf of good quality in dark orange to mahogany colour. Superior degree of ripeness, spotty, open grain, fairly soft to slightly rough, fairly oily medium to heavy body, a material amount of injury associated with an advanced degree of maturity.

TOP FAIR QUALITY ORANGE TO DARK ORANGE

TSOK Leaf and tips of fair quality in orange to dark orange colour. Heavy body, normal to narrow width, slightly sponged and scorched with some run back.

THIRD SCHEDULE—*continued.*

TOP FAIR TO LOW QUALITY IN DARK ORANGE TO MAHOGANY

TN12 Leaf and tips to low quality in dark orange to mahogany in colour. Over ripe or a fair amount of injury associated with an advanced degree of maturity.

BOTTOM GRADE QUALITY LEMON TO LIGHT ORANGE

BL12 Lugs and cutters of fine quality in lemon to light orange in colour.

Mature spotty, open grained, fairly oily to low oil, medium to thin bodied.

BOTTOM FAIR QUALITY LEMON TO LIGHT ORANGE

BL 3 Priming, lugs of fair quality in lemon to light orange in colour. Mature, slightly spotty, low in oil, thin body.

BOTTOM GOOD QUALITY ORANGE

BD Primings, lugs of fair quality in orange colour, ripe, spotty, low in oil, thin body.

GR Leaf tips, lugs and cutters, unripe, thin to heavy body, carrying a greenish tinge of pale greenish shade affecting 10% of the leaf surface. No fixed green.

Tolerance due to blemish, spotting and curing faults should not exceed 15% of the leaf.

D Tips and leaf off type for other grades, medium to heavy bodied close and tight leaf structure. Length not less than 9 . Leaf not fitting other grade descriptions excluding sucker leaf, mouldy or funky leaf and leaf showing damage due to storage pests.

N Primings, lugs and cutters off type for other bottom grades, perished leaf due to over ripeness.

Injury tolerance is 45% of the total leaf surface.

No mouldy or funky leaf should be included.

THIRD SCHEDULE—*continued.*

NB: The following tobacco will be rejected:

1. Tobacco mixed or nesting in a bundle.
2. Tobacco hands not properly tied either too small or too large.
3. Hot, funky or mouldy tobacco in a bale.
4. Dead leaves or scrap tobacco under 1/4 in size.
5. Tobacco with excessive sand on leaves.
6. Heavy crude green leaves.
7. A moisture content greater than 18% or less than 14%.
